

FROM THE ARCHIVE BIB

(Exhibition in BIBIANA, International House of Art for Children)

An accompanying exhibition in the BIB Gallery in BIBIANA, the International House of Art for Children, held in conjunction with the competition exhibition and the other exhibitions, has already become a tradition. This year's exhibition is a special selection of original illustrations from the archives of the Biennial of Illustration Bratislava secretariat. The decision to exhibit selected original illustrations was made because the archives of the Biennial of Illustration Bratislava have collected more than five hundred original illustrations by acclaimed domestic and international artists who have participated over BIB's 44 years of history.

Many of the illustrators received awards at the Biennial of Illustration Bratislava, including the Grand Prix, the Golden Apple or BIB Plaques. The archives hold works by fifty-one artists from 22 countries. On the exhibition is possible to see more than 60 art works.
